BAKED-IN BEAUTY

NU-DENT

**ACRYLIC
RESTORATIONS
ARE NOW
VACUUM-BAKED**

- Baked-in Beauty!
- Baked-in Resistance to Wear!
- Baked-in Permanence of Color!

AN EXCLUSIVE NU-DENT TECHNIQUE

(Pat. Pending)

Now...NU-DENT'S special acrylic is baked at 550° in exclusive Vacuum Furnaces...resulting in greater strength, greater resistance to wear and a beautiful porcelain-like glaze!

Nu-Dent baked acrylic is more resistant to abrasive action of the food bolus as well as the toothbrush. The color lasts longer and permanency of shade is assured.

The coupon will bring you detailed information on this latest practice-building NU-DENT development!

EXELON (Trade Mark)

(Pat. Pending)

In conjunction with the Vacuum-Baking of NU-DENT Acrylic under 550°, we use a new, clinically tested porcelain-like enamel opaquing material...EXELON. The Acrylic, the EXELON opaque and the gold casting become one solid bond!

(EXELON is usable only with NU-DENT'S Vacuum Baking Technique at 550°.)

S. S. WHITE DENTAL UNITS

Selectron
MODELS

Automatic cup filler . . . a real time-saving Selectron convenience. Water level can be adjusted. Mixing valves at sides of niche provide water temperatures up to 110°F.

You may have the warm water syringe on the cuspidor arm or in the bracket table. Hoses for saliva ejector and syringe are retractable, enhancing the Selectron trim look.

Water is supplied to cuspidor independent of the saliva ejector system. Siphon breaker assures uncontaminated supply. Saliva ejector system provides 50% greater suction.

Convenient, smartly styled panel carries controls for water syringe temperature, flush and saliva ejector. Valves are clearly identified and easy to reach.

Superbly efficient, the new streamlined Selectron units have pushbutton controls, concealed instruments, accessories always at hand . . . and many other fine features.

Swissedenture is many things . . . It is **PERSONALITY**

Delicate personality

Vigorous personality

By combining the sciences and arts of the dentist, the sculptor and the psychologist, Swissedenture reflects the patient's personality.

Fundamentally, all persons are somewhere in the range of delicate, "medium" or vigorous in their physical personalities. The correct selection and positioning of teeth will augment this personality, resulting in a natural, pleasant smile. This achievement was not possible before the Swissedenture development of new materials and techniques.

Yes, Swissedenture is personality. It is also dedication of purpose, the reflection of life, of sex and age. But mostly it is people: the individuality of patients and the mutual quest for perfection by the Midwest Esthetics Forum and the profession we serve.

We, the members of the Midwest Esthetics Forum, pledge to maintain the highest standard of dental laboratory craftsmanship; to keep fingers on the pulse of all new advances in dental laboratory technology and, in consultation with members of the profession, to study these advances in an objective effort to determine their respective merits.

Contributions: Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever. Manuscripts and news items of interest to the membership of the society are solicited.

Forms close on the first and fifteenth of each month. The early submission of materials will insure more consideration for publication.

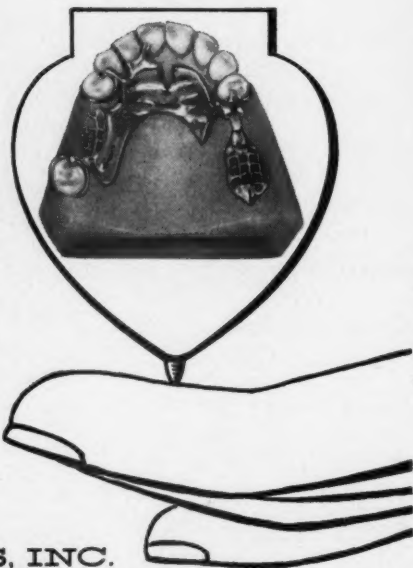

NOBILIUM IS TOPS

The successful *oral* service of partial dentures depends not only upon the metal used in processing, but also upon the dimensional accuracy of the materials used in preparing the cases for casting.

Thousands of prosthetic-wise dentists verify Nobilium service's superiority in providing partials that satisfy *every time*. The answer is to be found in Nobilium's employment of alloy, duplicating material, investments that were scientifically developed to *work together* for the best results. The Nobilium electric casting machine assures the most perfect dental castings ever made by protecting the alloy during melting from the atmosphere with argon gas and thus eliminating flux and avoiding oxidation and carbon pick-up.

The whole is equal, as you know, to the sum total of all its parts. Nobilium partials are tops because *all* metal, materials and methods used in their construction are unsurpassed . . . For real patient happiness, nothing compares with Nobilium restorations. Specify them to your laboratory.

LAVORIS MOUTHWASH HELPS YOU WORK 3 important ways...

- **"Cuts" Mucus Film.** A rinse with full-strength Lavoris before an impression helps clear away mucus, prevents air bubbles. Many dentists now use Lavoris this way routinely.
- **Keeps Operative Area Cleaner.** Lavoris' unique cleansing action effectively and thoroughly cleans away mucus, food particles and impurities. Use Lavoris Spray $\frac{1}{2}$ strength or stronger. (Wouldn't you rather work in a Lavoris-clean mouth?)
- **Helps Promote Patient Comfort.** To nervous patients, even minor discomforts loom large. The pleasant taste and feel of Lavoris refreshes, helps keep them at ease. The bright red color of Lavoris helps mask minor hemorrhage.

LAVORIS

CLEANSING • REFRESHING
used by more dentists than any other mouthwash!

FROM TICONIUM:

THE AMAZING

Thompson Stress Eliminator

with POSITIVE RETURN ACTION

Two stainless steel springs are utilized: Cantilever Spring—snapped into slot in lingual bar. Saddle Retention Wire — placed into grooves of dowel, contoured to conform with ridge.

*From Ticonium comes the amazing
Thompson Stress-Eliminator, another Ticonium first!*

The Thompson Stress-Eliminator now provides you with an outstanding technique for free end saddles which, for the first time, enables a complete vertical movement and positive return action, thereby eliminating permanent tissue displacement—resulting in greater patient comfort.

The Thompson Stress-Eliminator provides a slight physiologic stimulation — no overstimulation, does not require constant adjustment, and is not a food catcher. Specify Thompson Stress-Eliminator® on your next case—another exclusive of your Ticonium franchised laboratory.

Not So Far Away Nor Long Ago

Death of an Old Friend

Walter Hyde

(The article which appears below was originally published in the July, 1960 issue of Northwest Dentistry and was written by its venerable Editor, Dr. Walter Hyde. We are sure you will find this very thought-provoking writing. We are grateful to Dr. Hyde for expressing thoughts which many of us have had under similar circumstances.—E. Ebert.)

The recent death of an old friend distressed me deeply. I had known him for many years. It was not his death that disturbed me so much; it was something else. He was eighty-six years old. He had lived a full and useful life but had been an invalid for a number of years. He suffered from a general debility that prevented him from engaging in any particularly satisfactory activities and, in addition, he had a severe palsy that made it exceedingly difficult for him to eat or drink. He could scarcely hold a cup. My distress came from the way in which his death was prolonged for more than a week.

Every man has a right to live. The laws are very strict in preserving this right which seems to be inherent in all living things. It is the unquestioned duty of the physician to give every consideration to this right, especially with the young, but does not a man have also a right to die? Is it not presumptuous for a physician to use his skill to prolong death? Is that not more definitely so when the most that

can be hoped for is but a few days? "Disturb him not, let him pass peacefully." (Salisbury, at the death-bed of Cardinal Beaufort, *King Henry VI*, Shakespeare.)

The picture of my old friend on the wires of a heating pad, with punctured veins for artificial feeding, an oxygen mask over his face, plus a heart stimulant at intervals, will haunt me for a long time. Nor is this an isolated instance as can be determined readily by query among one's friends.

Ferrier (*Medical Histories and Reflections*, page 193) says:

"The physician will not torment his patient with unavailing attempts to stimulate the dissolving system, from idle vanity of prolonging the flutter of the pulse for a few more vibrations. If he cannot alleviate the situation, he will protect his patient against every suffering. When things come to the last, he should be left undisturbed."

The word *euthanasia* is derived from two words: "EU" meaning happy, pleasant, and "THANTOS" meaning death. Originally, it meant just that, a quiet, easy death. To relieve pain preceding

death is the unquestioned duty of the physician. It is one of the outstanding missions of the medical profession. In no way can this be interpreted to justify prolonging death with all the discomfort and anguish to both the patient and the family that ensues.

Lately, the word *euthanasia* has acquired a new meaning. It now suggests the so-called "mercy killing" or "liberating death." This is entirely illegal and in conflict with all social standards. It should never be asked of a physician because it would put him in the place of judge, jury, and executioner—too much for any man! If a member of the family contributed to this, it would be murder.

All of this, however, is entirely different from doing the many technically skillful things that can prolong death.

I have no wish to minimize the difficulties of reaching a decision as to when treatment is hopeless. A patient should be given every opportunity as long as a reasonable hope of recovery exists. This is particularly so for the young because of the great tenacity of life and the wonderful recuperative powers of many individuals. When, however, the patient is old and the usual remedies no longer have their effect; when the heart is not regular even with digitalis; when morphine loses its magic; attention should be turned entirely to the comfort of the patient, not to prolonging his difficulties.

To prolong his distress in the vain hope that "some new treatment may be discovered," is a sad commentary on the capacity of the physician for genuine human feeling. He should be prepared to make his decision by having a full education. This means a knowledge of customs and traditions, poetry and literature, philosophy and religion, and even

better still a professional family background.

It is not necessary for the physician to bear the entire burden of caring for and comforting a patient as he nears the end. There are, these days, many clergymen who are just as skillful (and possibly more dedicated) in their field, as the physician is in his. The value of the sympathy and understanding by the minister cannot be overestimated. There should be no "waiting until the last minute" to call him. As soon as the physician thinks the end is approaching—or even before—the clergyman should be called to take his proper place (except in those rare cases when the patient does not desire it). The entrance of the clergyman should not be something to cause alarm.

Often in the days gone by, the old and sick were cared for in their own homes and could die quietly and peacefully in familiar surroundings. Now their fate usually means a hospital "with the family shoved into the corridor by the presence of intravenous stands, suction machines, oxygen tanks, tubes emanating from natural or surgically induced orifices, and, if a patient is not comatose, his last words or wishes lost behind an oxygen mask." (Farrell, *Journal, South Carolina Medical Association*, page 231, July, 1958).

I shall not soon forget my friend and can only hope, with one of the popular and well-known medical writers:

"Some day when I lie dying, I may have by me some wise and kindly physician who will keep interns from pulling me up to examine my chest, or puncturing my veins, or putting a tube down my nose, or giving me enemas or drastic medicine. I am sure that at the end I will very much want to be left alone." (Alvarez, *Journal of the American Medical Association*, page 86, September, 1952.)

Physicians Organize for Political Action

On August 20th and 21st a group of physicians of Illinois met in Chicago and constituted themselves an organizing committee to form an organization for political action, to be called the Illinois Medical Political Action Committee. It is a voluntary, non-partisan, unincorporated association of physicians banded together for purposes of political action and it will depend entirely upon dues and voluntary contributions. As initially set up it will operate state-wide and it is expected that component committees will be formed in each county and on a branch level in Cook County.

IMPAC is being formed to support candidates for public office who believe in the free enterprise system regardless of party affiliation. IMPAC expects to participate in the November election on a limited scale. It will be a permanent organization and will build for the future.

The item that appears below is reprinted from the *Springfield Newsletter* of the Illinois State Medical Society of September 13, 1960. We thank the Society for its use.—E. Ebert.

OCTOBER 10 is Your Last Day to Register to Vote on November 8.

You cannot vote on November 8 unless you are registered. Anyone is eligible to register who (1) is a citizen, (2) is or will be 21 on or before November 8, and (3) by November 8 will have lived in Illinois one year, in the county 90 days, and in the precinct 30 days.

If you have moved on or before October 9 (1) from one precinct to another in the county you must file a change of address form, (2) from one county to another in the state you must reregister in person on or before October 10. (Persons moving from Chicago, Berwyn, Chicago Heights, Cicero, Harvey, Lyons or Stickney to any other place in Cook County must also reregister.)

If you move after October 9 (1) out of the precinct in which you were registered into any other precinct, you will not be able to vote, (2) from one address to another within the same precinct you will be able to vote on November 8.

If your name has been changed by marriage or otherwise, you must reregister by October 10. If the change of name occurs after October 11 and you still reside in the same precinct in which you were registered under your former name you will be able to vote November 8 by signing an affidavit at your polling place.

If you expect to be away from the county on November 8 (1) you may apply by letter (letter or postal card) for an absentee ballot. Such request must be received not earlier than October 10 and not later than November 3. Give your name and residence address and the address to which your ballot is to be sent. (2) You may apply in person not earlier than October 10 and not later than November 5. Apply to your county clerk, or to your local board of election commissioners.

If you are physically disabled (1) you may apply by mail for an absentee ballot (same procedure as above). However, you must also submit with your request an affidavit from a licensed physician (or Christian Science practitioner), stating you are incapacitated and why. (2) To register you must appear in person at a registration office.

Members of the armed forces on active duty, of the merchant marine, of religious groups and welfare agencies officially attached to and assisting members of the armed forces, their spouses and dependents and civilian employees of the United States serving outside the country, their spouses and dependents may vote November 8 whether registered or not if otherwise qualified. They must apply for a ballot on the proper form not later than November 3.

THE CHICAGO ACADEMY OF DENTAL PSYCHOSOMATICS

WORKSHOP ON HYPNOSIS

L. H. MONFORT, *Chairman*

1. **November 4, 1960 . . .**
Introduction and Orientation J. D. MERSHIMER

(Colored movie covering three sittings of an immediate denture case under hypnosis and chemical anesthesia will be shown—including taped running commentary by Richard Scott.)
2. **December 2, 1960 . . .**
The Dentist's Role in the Field of Hypnosis L. JARACZ
3. **January 6, 1961 . . .**
The Psychologically Oriented Dentist IRVING SECTER
4. **March 3, 1961 . . .**
Hypnosis in Clinical Dentistry and Oral Surgery ROBERT ATTERBURY
5. **April 7, 1961 . . .**
Motivation and Susceptibility BASIL HAYES
6. **May 5, 1961 . . .**
Hypnosis as an Adjunct in the Construction
and Wearing of Dentures RICHARD SCOTT

This "Workshop" will be held as part of the regular monthly meetings of the Chicago Academy of Dental Psychosomatics. In addition, there will be well-known speakers of national reputation at several meetings. Early registration will enable the Academy to provide comfortable and sufficiently large quarters, so must close October 21. Each registrant will be notified promptly thereafter as to the meeting location.

Please fill out the blank below, and mail to:

DR. L. H. MONFORT

7145 Broadway

Crown Point, Indiana

CHICAGO ACADEMY OF DENTAL PSYCHOSOMATICS
WORKSHOP ON HYPNOSIS

Enclosed please find check for \$25.00 to cover annual dues and registration for the Hypnosis Workshop starting November 4, 1960. It is understood there will be no further charges.

Guard Your Re-registration Card

The re-registration card you received in March as a renewal of your license for the next two years should be guarded as one of your most precious possessions, which it truly is. The reason for this warning is that should you lose or misplace the renewal certificate or should it be stolen, it may mean considerable trouble to have it replaced. The purpose of re-registration is to give protection to the licensee and to the public against illegal use of a license and to prevent illegal practice. Below is a copy of a letter sent to a dentist who was unfortunate enough to have his license disappear. It is published to advise you as to what is entailed in obtaining a duplicate renewal certificate. So, be very, very careful and guard it.—*E. Ebert.*

DEPARTMENT OF
REGISTRATION AND EDUCATION
Springfield

August 25, 1960

Dear Doctor:

This will acknowledge receipt of your letter of recent date in which you state your renewal certificate as an Illinois licensed dentist had disappeared.

This Department issues duplicate certificates in such cases only upon written recommendation of the Dental Examining Committee, before which committee you must appear for oral interview as directed by this office. As you can readily see, this Department is hesitant to issue a duplicate authority to practice. The protection which we seek to give the licensee and the public is jeopardized when a license is misplaced, lost, or stolen.

You may complete the enclosed affidavit and return it to this office with a recent personal photograph, three letters of recommendation from Illinois licensed dentists, and a certified copy of the record of recording your original certificate with the county clerk of a county in this State, in the event it was so recorded.

Very truly yours,
Vera M. Binks
Director
By Fredric B. Selcke
Superintendent of
Registration

MAKE A NOTE TO VOTE...

NOVEMBER 8th

News and Announcements

DO YOU REALLY CARE? IF SO, CONTRIBUTE NOW!

The State of Illinois quota for the relief fund of the American Dental Association is \$8,030.00—out of a total goal of \$125,000.00. Last year one out of three members was concerned enough to give toward this fund which makes the golden years of our professional brothers, upon whom misfortune has befallen, a little more livable and happy. The aid given to one in need is the difference between being the ward of the county or state and the dignified sunset that comes from assistance in paying his own way. Only because some of us have been too busy to stop and consider what our help can mean to these senior citizens have we failed to be 100 per cent instead of 33 per cent.

Send that contribution now before the great demands are made at the Christmastide, and make it for not less than a "five spot." You will have given to these patriarchs a more pleasant and secure sunset and you yourself will be doubly blessed.

Mail that check to the A.D.A. Relief Fund, 222 East Superior Street, Chicago 11, Illinois. DO IT NOW!—E. Ebert.

NORTH SIDE TO HEAR MASSLER

Professor Maury Massler, Chairman of the Department of Pedodontics at the University of Illinois, has recently returned from a six-month teaching fellowship at the Hebrew University School of Dentistry in Israel. The North Side Branch will hear him speak on "Oral Habits, Origin, Evolution, and Recent Views on Management," at its first meeting of the year on October 11th at the Edgewater Beach Hotel. All Society members are invited! Cocktails, 6:30, dinner, 7:15; meeting and speaker, 8:00.

WRITE THE HILTON FOR MIDWINTER ROOMS

Room reservations for sleeping accommodations at the 1961 Midwinter Meeting are to be made directly with the advance reservations section of the Conrad Hilton Hotel. Previously they could be made through the Society office but increasing attendance year by year has made it impossible for the small central office staff to carry out this function.

Requests for rooms should be made in writing and sent to the hotel in Chicago, Zone 5. Give the type of room desired, the names of all the occupants and the day and time of arrival together with the day of departure.

The Conrad Hilton is usually out of rooms for the Midwinter Meeting by Thanksgiving at which time requests will be forwarded from the Hilton to the Chicago Housing Bureau which will assign latecomers to rooms at other Chicago hotels.

Rooms at the Hilton are limited. It is a case of first come, first served—write now or pay later.

TAKE MEMBERSHIP CARDS TO LOS ANGELES

Dr. C. Gordon Watson, Assistant Secretary of the American Dental Association, reminds us that the 1960 membership card is a *must* for registration and admission to all meetings of the A.D.A. meeting in Los Angeles. The annual session will be held October 17-20 and an outstanding program will be presented.

The meeting will also mark the second consecutive session in which the four-day meeting will be opened with a general session on Monday, October 17th, at 9:30. It will be held in the Pacific Ballroom of the Statler-Hilton Hotel and with Dr. Lee A. DuBridge, President, California Institute of Technology, as

(Continued on page 32)

News of the Branches

West Suburban

Next West Suburban meeting will be held on Tuesday, October 11, at Riverside Country Club—guest speaker to be Dr. Arthur Krol who will talk of "Denture Adjustments." . . . Round table meets Monday noon, October 3rd, for the first meeting of the season at Oak Park Club. Dr. Joseph Restarski will speak on "Root Canal Technic." . . . Recently corrected season dinner tickets were sent out by our dinner chairman Jim Ridlen; please note correction of dates on reverse side of the tickets. . . . Vacationers still making the most of it are Dick and Mrs. Anderson in New York City seeing the sights. They are also meeting their daughter Judy, who is arriving from Europe where she has been traveling during the summer. She is bringing back a Volvo which her father might even get to drive sometime. . . . Barney Siegrist is up in Northern Minnesota trying his luck at Fall fishing. . . . Congratulations to John and Mrs. Ott on the recent marriage of their daughter, Valerie Anne. . . . Understand that Joe Brophy's wrecked auto, a result of a golf course parking lot mishap, is now repaired and up to par. . . . Was happy to hear that Ron Gresens is doing advanced research in the field of acute nasal catarrh and conjunctivitis—namely attempting to find the prevention and alleviation of hayfever—he has been spending most of his time indoors sitting alongside an air-conditioner. Good Luck, Ron. . . . Another success was chalked up by the Loyola Dental Alumni at their golf outing. In addition to golfing, handshaking, bottle-toting, card playing, singing and dining were enjoyed by many amongst whom were Frank Lucatorto, Frank Novak, Jim Ridlen, Joe VanCura, Frank Klepacki, Joe Brophy, Joe Azarello, Bill Stoffel, Dale Chastek, Bob Maney, Bob Strenk, Dom Catrambone, Bill Aquilino, Bob Musil, Sol Metcalf, Ed Kritzke, Tony Bittman, Stan Giese,

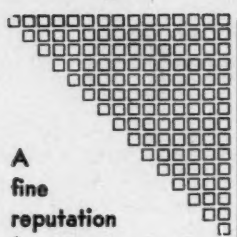

Joe Restarski, Bob Pollock, George H. Welk, George E. Welk, and yours truly, and, oh yes, Werner Gresens who was of greatest assistance in carrying the burden at the "Huntington & Homer" department. . . . Don't forget, see you October 11.—*J. V. Discipio, Branch Correspondent.*

Be sure to contact the candidates of your choice for the coming election for the State Legislature.

Give them your personal support—financially, and by working for them at this election.

North Suburban

Waldo Urban has now joined the low-handicap golfers. He threw a fancy 84 at the boys at Thorngate last week! Look out for him now. He's got that gleam in his eye. . . . The Evanston Association is having a fall outing at the Glenview Naval Air Station on Wednesday, October 5th, so bring your clubs and work up an appetite for a steak dinner at Navy prices. . . . Axel Pedersen (Mr. President) and Zenas Shafer motored down to Indianapolis to attend "California Charlie" Stuart's Seminar. . . . Eli Olech is attending a meeting of the co-ordinators of cancer teaching which will be held at the University of Minnesota. While there he will also attend the 4th National Cancer Conference. . . . Now hear this: The first meeting of our Branch will be at the Georgian Hotel in Evanston on Tuesday evening, Oct. 4th. Dr. Harry Sicher will be guest speaker. Subject, "What and Where is Centric Occlusion?" Now there's a good question, Bub. Send in your checks for your season dinner ticket before the meeting to save time at the door. The attendance will be large this year. . . . Clarence Peterson is boasting of a new son. . . . Dick Fischl looks good after vacationing in White Lake, Michigan.

... The Lake County group will meet October 3rd at Hank's Restaurant. The featured speaker will be Mr. Edgar Stephens. Subject: "Illegal Laboratory Practices." Members are asked to invite their laboratory men. ... "Pete" Pedersen is motoring up to Sheboygan for a 3-day rest with his family. Says he's getting ready for the coming season. So it ought to be good! See you at the meeting.—

North Side

"Adventures In Clinical Practice" is this year's theme for the North Side Branch meetings! Aubrey Lauterstein, Program Chairman has arranged to have Prof. Maury Massler, head of the Pedodontia department at the University of Illinois School of Dentistry, as our season's first speaker. His subject will be "Oral Habits, Their Origin, Evolution and Recent Views on Management." The date is Tuesday evening, October 11th, at the Edgewater Beach Hotel. ... Our Dinner Chairman, Harold Rabin will tell you that good programs are only a part of the success of our meetings. He urges all members to plan to attend earlier and be on hand for the cocktails from 6:30 to the 7:15 dinner time and enjoy the camaraderie of your fellow members with exchange of stories and shop talk. The tasty Edgewater Beach dinners will place you in the mood for the meeting and speaker to follow. A season's ticket of \$21.00 will cover any 4 out of 5 meals of the year. As an added attraction, prizes will be given to lucky season's ticket holders at each meeting. Make it a complete evening of enjoyment by phoning Harold Rabin at RO 1-0574 for your Season Ticket. Meeting dates are October 11th, November 23rd (Clinic Day), January

10th, March 14th and April 11th. Now is the time to make the notations in your appointment book!! . . . The A.D.A. says that 8 out of 10 dentists partake of post-graduate studies! There is no finer place to start than with our C.D.S. monthly meetings and with our N.S. Branch meetings, and our Clinic Day program on November 23rd. Harry Greene, our Clinic Day Chairman, has arranged a Limited Attendance Program on the ever-stimulating subjects of Periodontia and Endodontia. Dr. John R. Wilson, Assistant Dean of Ohio State Univ. School of Dentistry will clinic on "Old and New in Gingivectomy." Dr. J. Henry Kaiser from Columbus will attempt to solve the "Problems of Endodontia." Dick Pipia, our Table Clinic Chairman, has already arranged for about 25 clinicians and about as many commercial exhibitors to display their talents and wares. Highlight of the day should be the Luncheon Program with the controversial Jesse Owens, just returned from the Rome Olympics, as our guest speaker. All C.D.S. and other A.D.A. members are invited to partake. . . . The semi-annual installation of officers of the Uptown Dental Forum was enjoyed by 50 couples at a gala party at the Villa Venice on September 13th. Outgoing President Harry Greene, Program Chairman Joel Arnold and Secretary Dick Pipia installed Ted Siegel, Hank Mittelman and Joe Gordon, Jr. into their respective offices. . . . Ben Bolasny's son Allen was accepted at the U. of C. Med. School. . . . Morry Gerry's daughter, Carol, was recently engaged to Marty Rudman of Joliet. . . . Bob Oppice, a fine Thespian, has been seen by many of our members in Summer Theater. . . . Joel Arnold and family vacationed in Conn., N.Y. and Washington, D.C. . . . The Jules Hazelkorns were in L.A., Palm Springs and Yosemite. . . . The Semiloffs were at Oakton Resort. Bill will take the Glickman Course in Boston at the end of the month. . . . Lee Levey fished and slept for 6 weeks at his "shack" in upper Minnesota. . . . The Allen Gerber family went home to the in-laws in Sarasota, Fla. for 3 weeks. . . . Condolences to Art

South Suburban

Important announcement! The meetings of the South Suburban branch will be held at Mickelberry's Highway Inn in Chicago Heights. The 1st regular meeting will take place on Tuesday, October 4th. This will be political night and one you won't want to miss. There will be a panel-type discussion with question-and-answer period. Many topics will be discussed that will be of interest to all. The cost of meals

will be \$6.00 this year. There will be available a pay-in-advance plan at a cost of \$32.00 or a savings of \$10.00 over the year. There will be seven meetings in all. Plan to attend them all this year. Remember the objectives of our Society are, "promote public welfare by the improvement and advancement of the dental profession in education, science and professional service; to engage in charitable, scientific, literary and educational purposes." Your society meetings are for you!

. . . The first study club meeting of the fall was on September 27th at St. James Hospital, Chicago Heights. H. C. Sorsen demonstrated "pontifab." The 4th Tuesday in October will be the second meeting of the study club with Dr. Videcca from the Univ. of Ill. discussing Radiology. Contact Herman Gornstein for reservations. . . . Plans are now definite for the two-day workshop in December. John Mosteller will present the clinic on Dec. 6th and 7th, or Tuesday and Wednesday—all-day sessions on operative dentistry. . . . The rough draft of our constitution and by-laws was presented and discussed at the last Board of Directors Meeting. A copy will be sent downtown and a copy to the membership for approval and acceptance. Myron Bardige has done a tremendous job preparing the constitution and deserves all the credit for a job well done.—*Thomas R. Case, Branch Correspondent.*

Be sure to contact the candidates of your choice for the coming election for the State Legislature.

Give them your personal support—financially, and by working for them at this election.

Kenwood-Hyde Park

Our hats off to that tremendous organizer, who is doing an outstanding job in the very important task of programming. All of you who have received the program of events for the ensuing year, must certainly have promised yourselves

that this is a *must* and that you owe it to yourselves to take advantage of this excellence in programing, so beautifully planned by Kenwood-Hyde Park's dedicated worker, Stan Korf. Can you afford not to take advantage of delicious meals offered to you at each of the monthly meetings? Treat yourself to an evening of fun coupled with a session of learning. Remember the new meeting place—Arnold and Eddie at 9325 So. Stony Island Ave., on Tuesday, October 4, where the bar will be opened at 6:00 p.m. and dinner served promptly at 7:15 p.m. The first speaker of the evening will be Dr. Harold Hillenbrand, Secretary of the American Dental Association, whom all of you know as a dynamic speaker internationally known. The second speaker is a clinician from New York, Dr. Henry Sorsen, who will show us a new technic for anterior bridgework. Don't miss this double-header—send in your check for the dinners in advance and save yourself some money. Let all of us show our appreciation for Stan Korf's tremendous efforts by showing up at each meeting. This is your branch—make it bigger and better than ever before. . . . How did you find time, Stan, to get away with your eleven-year-old son after all of this? Stan and his son drove to Bailey's Harbor in Door County, a fabulous place in northern Wisconsin for fishing, water skiing, swimming, etc. Stan sent his wife and daughter to California, while he and his son participated in all the abovementioned sports plus catching frogs—sounds like fun. . . . Larry Scheff is back to work after spending a little time in the hospital. He is okay now, but let's not hear any more news like that again, Larry, just keep well. . . . Howard Shepard attended the Wisconsin Dental Study Club in Madison, where an excellent three-day session on practice management was given. The Chicago area was well represented, but only one from Kenwood-Hyde Park and that was Howie himself. There were a total of 400 present, of which 206 were dentists and the remaining, auxiliary personnel. This was an outstanding meeting according to Howard. After this ses-

sion he and his family went to the Dells. Howard informs me that he has sold his home and is now residing in the new and lovely section called "Prairie Shores," where the view from his window overlooks the beautiful Lake Michigan and I am told that he spotted Vic Wittert in his boat from his window. Come on now, Howie! . . . And talking about boats, guess who my next subject is—yes you guessed it, none other than the Jacobi's who again walked off with eight more trophies over the Labor Day week-end, both Jean and his wife. What a great family of winners! . . . Forgot to mention in the last issue that the Larry Johnsons are also heading for California in October for the convention, by train via Las Vegas (be careful, Larry), then a few days in Los Angeles, then off to San Francisco, and back to good old Chi. Traveling by train is one sure way to see the beauty of

our land. . . . Well, Bernie Glaser was off again with his family. This time it was French Lick, Indiana. . . . Sid Berg took his son back to Culver Military Academy. . . . Herman Crystal and family drove to New York where they took in a number of the shows and also spent some time in Atlantic City. . . . Ascher Sherow went west motoring to Estes Park, Colorado and also South Dakota. What happened? This time I have more news and ran out of space. Watch for the next issue. Keep well and happy.—*Morton J. Fireman, Branch Correspondent.*

WHAT A STRADIVARIUS
SYMBOLIZES IN VIOLINS...

CARBOCAINE

SYMBOLIZES IN LOCAL ANESTHESIA...WITH ITS NEW,
UNIQUE AND UNSURPASSED STANDARDS OF PERFORMANCE.

From the performance of Carbocaine in scores of blind clinical investigations and in millions of applications in actual practice emerges this pattern...

- Carbocaine is remarkably well tolerated, both locally and systemically.
- Carbocaine frees patients sensitized to procaine from allergic responses to procaine-related local anesthetics.
- Carbocaine's effectiveness is consistently excellent.
- Carbocaine's onset is very, very rapid, frequently reported as "immediate".

We urge you to try Carbocaine now and see for yourself. Your dental dealer stocks it in 1.8 cc. min. cartridges, 50 cartridges per can. Or write for clinical samples and detailed literature to the pioneer in dental local anesthesia...

speaker. Wives and guests are invited and there will be no admission charge. **A.D.A. Secretary, Dr. Harold Hillenbrand**, reminds us that this meeting is not to be confused with the first session of the House of Delegates which will take place at 1:00 p.m. in the same ballroom.

C.D.A.A. NEWS

The Chicago Dental Assistants Association will meet October 16-19 at the 36th Annual Session in Los Angeles, California.

North Side Branch of C.D.A.A. will hold a meeting October 11, with Dr. Anthony W. Gargiulo speaking on "Periodontology." The South Side Branch has also scheduled a meeting for October 11, featuring a speaker from the American Cancer Society and a film on "Time and Two Women." The C.D.A.A. West Suburban Branch members will meet at Otto's Restaurant in Forest Park, also on the 11th. Dr. Anthony Malone will talk on "Children's Dentistry."—*Olga Tamarin, Publicity Chairman.*

OTTO BRANDHORST TO SPEAK AT NORTHWESTERN

Dr. Otto W. Brandhorst will deliver the Fourth Annual G. V. Black Memorial Lecture to be presented by Northwestern University Dental School, at Thorne

CREDIT BUREAU OF COOK COUNTY, INC.

Hall, Superior at Lake Shore Drive, Chicago Campus. Dr. Brandhorst, who will speak on the "Responsibilities in Health Service," is a widely known dental educator, administrator and editor. He is Dean Emeritus and Professor Emeritus of Orthodontics, Washington University, School of Dentistry, is a past-President of the American Dental Association, and for many years has been Executive Secretary of the American College of Dentists.

All members of the Chicago Dental Society are cordially invited to attend the lecture. The date—October 5th at 10:30 a.m.

O.K. JOHNSON TO APPEAR ON C.D.S. RADIO PROGRAM

Dr. O. Kenneth Johnson will represent the Chicago Dental Society on the Society's radio program, "Your Dental Health," on Station WJJD, 1160 on your dial, on Wednesday evening, October 5th. Check your newspapers for the exact time of the program. He will be interviewed on the subject of oral surgery, and the public's need for more information on that aspect of dentistry.

Dr. Johnson serves as Instructor in Clinical Oral Surgery at the School of Dentistry of the University of Illinois, and holds appointment to the staffs of Henry Hospital, Columbus Memorial Hospital, Highland Park and Lake Forest Hospitals. He is a member of the attending staff at the University of Illinois Research and Education Hospital in Chi-

cago. He is Chairman of the Committee on Public Information of the American Society of Oral Surgeons and a past-President of the Chicago Society of Oral Surgeons.

A native of Chicago, Dr. Johnson was graduated from the School of Dentistry at Northwestern University and completed residency training in oral surgery at Cook County Hospital in 1950. After military service as Chief of Oral Surgery Section at the U. S. Army Hospital, Fort Hood, Texas, in 1951-52, he entered the private practice of oral surgery and now maintains offices in Waukegan and Highland Park.

Dr. and Mrs. Johnson and their children, Kenneth, Jr. and Elizabeth Ann, make their home at 326 Butler Drive, Lake Forest, where they grow roses that won them three first and two second prizes in Lake Forest flower shows in September.

FLASH!

As we go to press, we learn that the validity of the Dental Practice Act amendment has been upheld by the Illinois State Supreme Court. Our October 15 issue will carry further information.

Be sure to contact the candidates of your choice for the coming election for the State Legislature.

Give them your personal support—financially, and by working for them at this election.

CRUSADE OF MERCY

The Chicago Crusade of Mercy began its errand of good on September 15th. By your contribution to this single cause you will help the sick in body and spirit, the bewildered youth, the needy family, the homeless, and the handicapped.

May I urge your support in response to a letter of appeal sent over my signature. The need is great; you can help!—
James N. Lynch, D.D.S., President.

DENTAL EDUCATION FUND RELEASES ANNUAL REPORT

The Annual Report of the Fund for Dental Education which has just been published shows that in the first full year of operation of the Fund \$136,509.95 has been contributed by 50 individuals, corporations and foundations, Maynard K. Hine, D.D.S., president of the Fund, has announced.

Contributions to the Fund are increasing at a most encouraging manner and are enabling the Fund to become a factor in supporting programs designed to aid dental education, he said. Contributions in 1958, the first year the Fund was in full-time operation, amounted to only \$47,000.

During 1959, the Fund made allocations and grants as follows: Three teaching fellowships in Anesthesiology, Periodontology and Pedodontics to future dental teachers studying at Pittsburgh, Alabama, and Indiana; a grant to the Amer-

ican Society of Oral Surgeons to hold a Planning Conference on Graduate Training in Oral Surgery; a grant to the University of Oregon to sponsor the first Conference and Seminar on the Teaching of Dental Economics and Practice Management held on the West Coast; special restricted grants to five dental schools; a grant to the American Association of Dental Schools which enabled that organization to hold the first conference of dental deans on the subject of dental school administration; a grant for a two-day conference on the Teaching of Dental Materials held at Northwestern University; and a grant toward the production of the ADA Centennial motion picture "Pattern of a Profession" which has been shown all over the country at radio, television, and group audiences. This picture, which is proving to be useful as a tool in dental student recruitment, has received a number of national awards including the Chris Award for excellence.

Although the Fund has not gone directly to the members of the dental profession for contributions, since many of them are now making annual gifts to their dental schools, an encouraging number of dentists are making contributions to the Fund in support of its program. These contributions may be restricted by the dentist for the use of certain schools or can be made for overall programs of the Fund, Dr. Hine pointed out. A number of dentists have begun sending memorial contributions to the Fund in lieu of sending flowers on the occasion of

TEACHING OF DENTAL MATERIALS CONFERENCE TO BE HELD AT N.U.D.S.

On November 1st and 2nd, a Conference on the Teaching of Dental Materials will again be presented at Northwestern University Dental School. The conference will be held in Thorne Hall, Superior Street at Lake Shore Drive, with registration at 8:30 a.m. Outstanding dental educators will act as Conference Leaders and the theme of the conference will be the influence of research and methods on the teaching of dental materials and its relations with clinical instruction. The conference again is being supported in part by the Fund for Dental Education. Anyone interested is invited to attend and is urged to request further information by contacting Dr. Eugene W. Skinner, Northwestern University Dental School, 311 E. Chicago Avenue, Chicago 11, Illinois.

DEFINITELY SPEAKING

Gossip: Talking about a person you don't know well enough to speak to.

Innate Modesty: The faith a shapely girl has that blushes are sufficient to cover what her swim suit doesn't.

Innate Courtesy: Listening respectfully to advice you wouldn't heed on a bet.

Caveat Emptor: Let the buyer of worthless stock beware of paying for it with a worthless check.

Promissory Note: What most political candidates campaign on.

Free Speech: The right to argue furiously over issues you don't understand.

— G. NORMAN COLLIE

A man found bedbugs in his bed and as he checked out of the hotel complained about them to the manager. Several days later he received a cordial letter explaining that no matter how careful they were, things like this happened every once in a while. They thanked him for calling it to their attention and hoped he would accept their apology. And he would have too, except that somebody had forgotten to detach a little slip that said, "Send this character the bedbug letter."

"I wouldn't be too worried about your boy making mud pies," said the psychiatrist to the worried mother. "And the fact that he sometimes tries to eat them is also quite normal."

"Well, I'm still not convinced, Doctor," replied the woman, "and as a matter of fact neither is his wife."

NEWS OF THE BRANCHES

(Continued from page 24)

bers turn to more serious thoughts in regard to their many activities. As with all those who have already returned to school-time pursuits, the true professional man is contemplating the various ways in which he can gain more knowledge in the newer methods that are being employed today. The pressure of a practice today is very time-consuming and as a consequence there is a need for some intellectual exchange of ideas among members of a profession. With this in mind may I remind our members that the first fall meeting will be held on Tuesday, Oct. 4th, at the Chanteclair which is located at 2304 N. Narragansett Ave. Remember! this is a change from the previous location so please mark this location in a conspicuous spot on your appointment book. The meeting will be a most interesting one and the food that will be served will be excellent. By the way! have you purchased that season dinner ticket which is still available at reduced prices; if not, you may still do so by calling Mark Spencer who is the dinner chairman. Mark's number is Na 2-0003 and he will be most happy to furnish tickets. . . . I hear that Tom R. Wright left for a brief vacation in Iowa. He will visit his mother who is just 91 years young and a "Happy Birthday" is extended to her from all. . . . This is just scuttlebutt but the Weclaw boys are contemplating a winter vacation together somewhere in the South over the Christmas holidays. The unusual thing about this arrangement is that this will be their first vacation together and we certainly hope their plans do materialize. Victor T. Weclaw, Jr. will be in the Boy Scout production of "The Gang" show. This is the fabulous production of which

you no doubt have heard. Mr. Ralph Reader of London, England does the writing, producing, and also furnishes the costumes. The boys have been rehearsing for a long time and from advance information the outlook is very impressive. Vic Weclaw will be most happy to advise anybody as to the time of showings. . . . Elaine A. Stuebner will be one of the participants at the A.D.A. convention in Los Angeles this month. She will have a scientific display at the convention on the Techniques of Local Anesthesia and will also be a participant on a panel discussion of Local Anesthetics in Dentistry. . . . Among those who are also planning to attend the convention in Los Angeles are Stanley Broniarczyk and Ted Weclaw. Did you know that three Northwest Side boys are the principal guiding lights behind three Academies? They are: Max Bramer, Jim Mershimer, and Ted Weclaw. . . . Seen recently at the Loyola Alumni Day outing at the Midwest Country Club were Gerson M. Gould, Ted Krynski, Felix Kurby, L. Madonia, Lee Schwartz, George Welk, and Joe Ullis, and a wonderful time was had by all. . . . A brief note about the two clinics which will be presented on Wednesday, Nov. 2nd, and also Wednesday, Dec. 7th, at the Chanteclair. These will be all-day refresher courses presented by two very able clinicians: Dr. A. H. Grunewald on Nov. 2nd, and Dr. E. Stuebner on Dec. 2nd. The material presented will be very pertinent to our everyday practice. All those interested should contact Ted Ferguson for registration.—*Chester L. Jasick, Branch Correspondent.*

Shown here is the "Reverse Pin" construction. Note the small parallel holes drilled in the porcelain teeth—and the unyielding gold backing beveled at the incisal.

REVERSE PIN PORCELAIN FACING GOLD BRIDGES

The completed Reverse Pin Porcelain Facing Gold Bridge using Swissdent teeth. Here, indeed, is the ultimate in bridgework.

A new concept in the quality of bridgework. Esthetics of the highest order, a new precision type of mechanical retention, and dependable strength make the Reverse Pin Porcelain Facing Gold Bridge the ultimate in bridgework. *You select* the denture teeth of your choice: Swissdent, Bioform, New Hue, Myerson, etc., and prescribe the mold and shade, and we use your exact specifications in constructing the fixed partial restoration.

Breakage is practically nil because the incisal edges are protected with a beveled backing. Retention is lasting. No metal is displayed.

How to Acquire a Permanent Savings Habit in Minutes

Learning to save isn't the easiest thing in the world. But thousands of Americans have discovered a way that requires no learning—buying U.S. Bonds on Payroll Savings. Just ask your company's bond officer to set aside any amount you wish each payday. You'll be surprised how little it changes your spending habits—and how quickly your savings will grow. Try it and see!

U. S. SAVINGS BONDS ARE MORE THAN A GOOD WAY TO SAVE

You save automatically with the Payroll Savings Plan.

You now get $3\frac{3}{4}\%$ interest at maturity.

You invest without risk under a U.S.

Just sign your name and you're saving! Buying U.S. Bonds on payroll savings requires no "saving skill". Your payroll clerk does the saving for you.

NOW every Savings Bond you own—old or new—earns $\frac{1}{8}\%$ more than ever before.

Government guarantee.

Your money can't be lost or stolen.

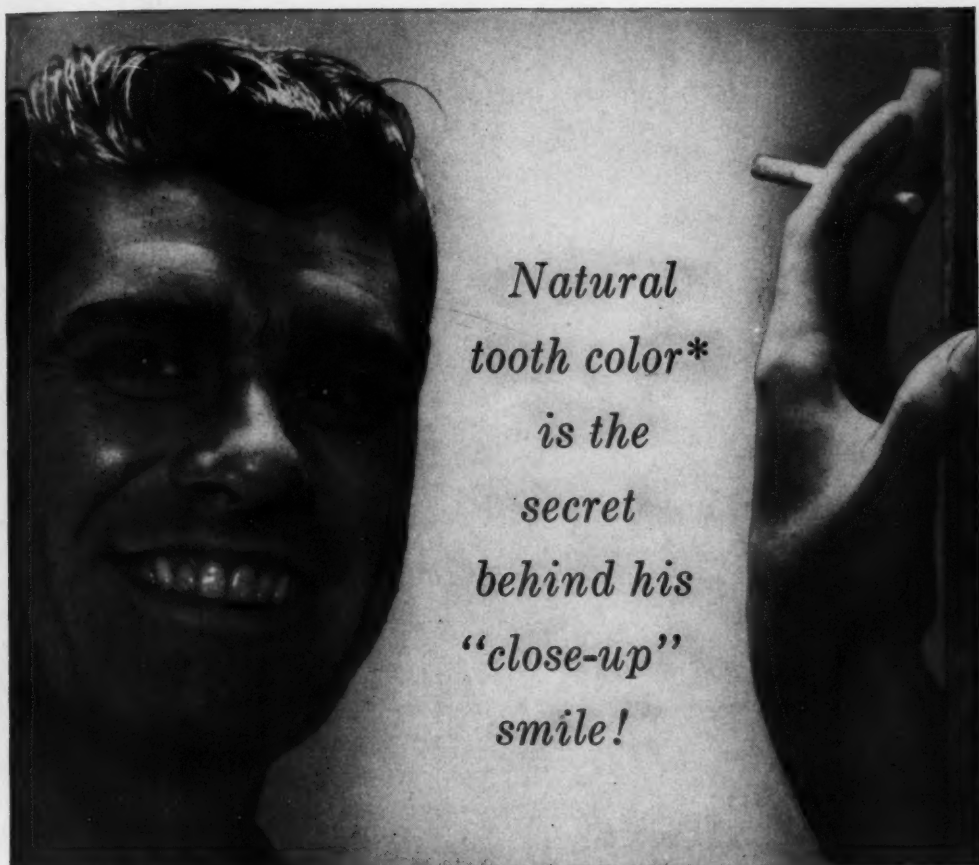

You can get your money, with interest, anytime you want it.

You save more than money—you help your Government pay for peace. Buy Bonds where you work or bank.

You Save More Than Money With U.S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this magazine for their patriotic donation.
